Marywood swimmers set water ballet

Marywood College swim team will present a water ballet, "Waterful World of Disney," Nov. 13 and 14 at 8:15 p.m. in the campus field house.

Anyone may attend. Ticket information may be obtained from the field house desk. The ballet, which will feature music from Disney productions, will begin with Disney characters performing to "The Main Street Electrical Parade."

Kelly Ulrich, president, will play the sugar plum fairy in numbers from "The Nutracker Suite." Seven seniors will play soldiers in "March of the Toys" from "Babes in Toyland."

They are Julie Newman, Maureen Drake, and "The Dance of the Reed Flutes."

Vice president Theresa Skotchdople will perform to "Wattz of the Flowers" from "Bambi."

Some of the swin club officers will perform to "Wintry Winds." from "Bambi."

Performing with Kelly Ulrich will be Mary Pat Kerr, secretary, and Kathy Archer, treasurer. Balls will be used in this number.

Seven seniors will play soldiers in "March of the Toys" from "Babes in Toyland."

They are Julie Newman, Maureen Drake, and "Wish Upon a star."

The swimmers also will "dance" to a "Snow White" medley, music from "Mary Poppins," and "Dumbo," and additional marking from "Conditional marcher, treasurer. And the program will feature Skotchdople and Judy Holler.

Lat year's president and vice president, Maureen Drake and Newman, will perform in "The Awakening," from "Sleeping Beauty."

The swimmers also will "dance" to a "Snow White" medley, music from "Mary Poppins," and "Dumbo," and additional marcher, from "Sleeping Beauty."

Team members will perform the concluding number of the show, "It's a Small World," by candlelight.

GOOD NEWS about

COODASPORIS By Lynn Swann Hi-Co CODY TIONS Possibly the most unusual home run ever was hit by Babe Ruth off Hod Lisenbee, pitcher for the Washington Senators in the 1920s. Lisenbee has claimed that Babe hit a screaming line drive that passed between his legs and then soared over the centerfield fence.

. . . .

the archives of American basebalt tells how, in July 1931, Joe "Mule" Sprinz of the Cleveland Indians caught a baseball that had been tossed from a blimp stationed 800 feet up in the air. Receiving the ball in an overstuffed catcher's mitt, Sprinz handled the job perfectly, but the ball's impact sent a shock wave through his body that broke his jaw. * * *

One of the most unusual baseball games ever played was the contest between Texarkana and Corsicana of the Old Texas League on June 15, 1902. The final

Allied decision made, but

I Marian chairman and Frank Grumm.

A public hearing was held on the appeal Oct. 21. During that hearing, Frederick R. "Pyotr and Pilot" Stephens, borough zoning officer for the past ten years, testified that he granted a special use permit to Allied last spring, Hey, PRAVDA, what'll ya' say? because "Borough Council President saw nothing wrong with it."

of ships, captains, and modern ways, and of the Russian Navy of the "latter-day?" It must be a riot, with tempers lost, there in the Kremlin,

adding the costs, but for Pyotr and Pilot, there got they, ditched on a rock in the Swedish Bay! there on the sands, plainly seen, Pyotr and Pilot hung on the rocks, with the Kremlin in temper,

Try as they might, in their usual way,

Members of the Jermyn Zoning Board of Appeals met Monday evening in the Jermyn Community Center and made a decision on a zoning appeal brought by Atty. and Mrs. Albert E. Nicholls, Jr. against the borough regard to a property at 438 Washington Ave. purchased by Allied Services for the Handicapped.

However, according to a spokesman for the board, results of the decision would not be announced until after parties in the litigation were notified by mail.

Robert J. Jones, who is serving as secretary to the three-man board, told the MIR-ROR Monday night. "Yes, we made a decision, but we cannot release it to the pressuntil we notify the people involved."

Other members of the Scranton law firm of Hughes, Nicholls is a member, Stephens stated that "Allied wanted the borough wanted the borough wanted the borough wanted the borough and the borough wanted the money."

Atty. John O'Brien, of the law firm of Oliver, Price and Rhodes, which represents allied Services conducted an Open House at the property. The same night members of the Zoning Board, members of Jermyn Council and the Planning Commission reportedly met in what a borough spokesman termed an "informal meeting."

What legal action will follow, if the Nicholls' appeal is upheld, si unknown. Whether or not the borough of Jermyn can legal action against the borough on't be determined until the Zoning Board, members of Jermyn Council and the Planning Commission reportedly met in what a borough spokesman termed an "informal meeting."

What legal action will follow, if the Nicholls' appeal is upheld, si unknown. Whether or not the borough of Jermyn can legally rezone the property; whether Allied will re-apply, for a special use permit or bring an action against the borough wanted the money."

TWINS Montan Price and Rhodes, which represents allied Services conducted an Open House at the property. The same night members of the Zoning Board, members of Jermyn Council and the Nicholls' appeal is upheld, a lied then has no recourse but to bring an action against the bor

Speculation among informed sources was that the board would uphold the appeal brought by the Nicholls, who live at 433 Washington Ave., just opposite the former Jermyn Community House. Allied Services purchased the property last spring and is using it as a halfway house for a transitional living program for emotionally disturbed

Await Discovery

There is still domestic oil and gas to be found. According to the U.S. Geological Survey, waters surrounding Alaska alone could contain up to 18 billion barrels of oil and as much as 60 trillion cubic feet of natural gas.

These potential additions remain in place, even findamount to 55 percent of currently proven oil reserves and 30 percent of proven gas reserves in the U.S.

Although there may well be huge deposits of domestic oil and gas waiting to be discovered, declines in production from existing fields are expected to more than offset production from men fields.

These are finite resources that must be supplemented by other available energy sources such as coal and nuclear, which have yet to be fully developed.

As long as environmental in high-risk, remote, and even environmentally hosen to discovered, declines in production from remain and offset production from the manner offset production from the production from the fields.

These potential additions remain in place, even finding new deposits of fossil fuel—which can be located in high-risk, remote, and even environmentally hosen to provide provide provided the political climate characterized by onerous daxes on domestic production, does little to make the good news better.

Encouragingly, experts at Mobil Oil Corporation believe that industry can provide the oil and gas (and coal and nuclear power) our country will need in the energy-short years ahead.
